HTML Lists and CSS List Properties

In HTML, there are two main types of lists

- unordered lists () - the list items are marked with bullets
- ordered lists () - the list items are marked with numbers or letters

The CSS list properties allow you to:

- Set different list item markers for ordered lists
- Set different list item markers for unordered lists
- Set an image as the list item marker
- Add background colors to lists and list items

Different List Item Markers

The list-style-type property specifies the type of list item marker.

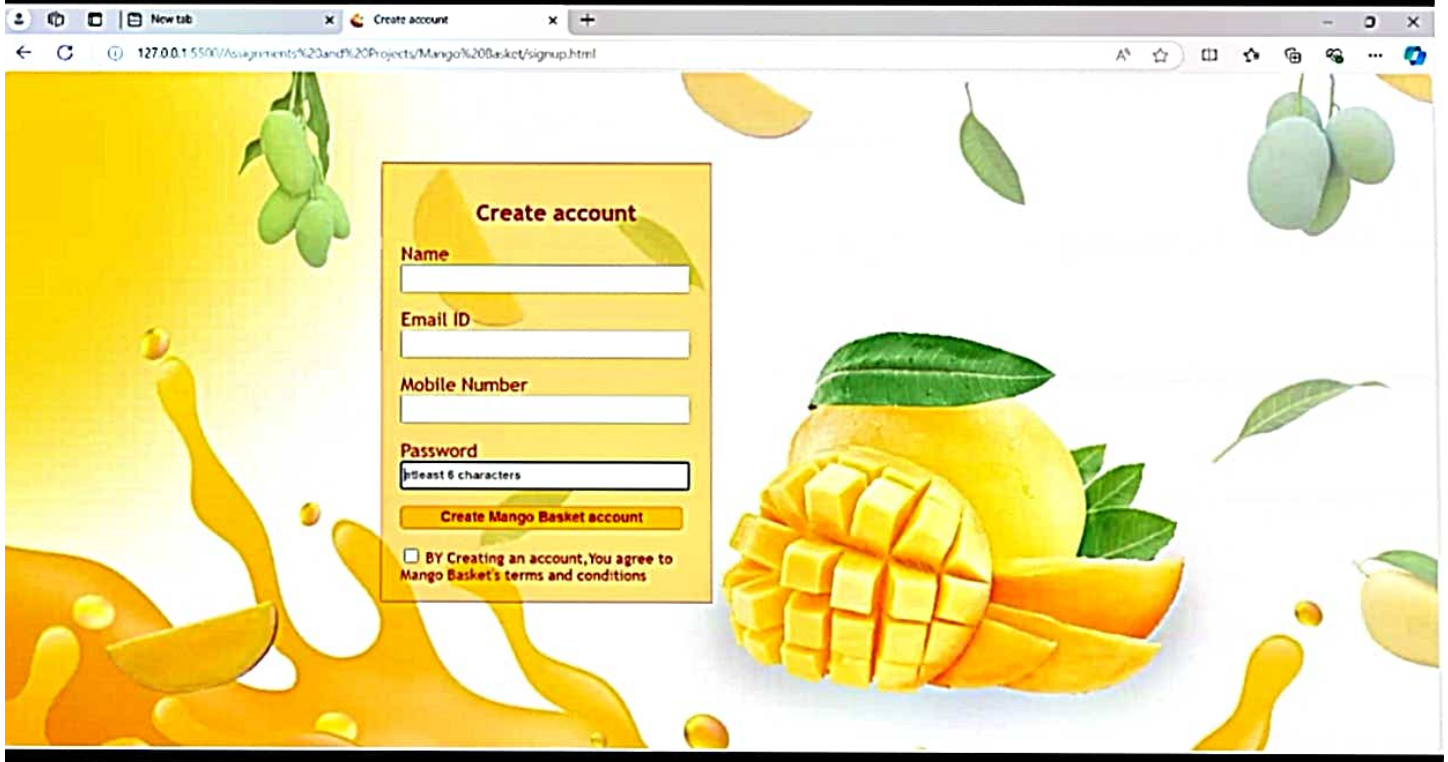

Example:

```
<!DOCTYPE html>
<html>
<head>
```

33°C

Partly sunny

Shaik is presenting
