About the College :

St. Ann's college for women was established in 1997 to uplift the rural women, impart intellect and spiritual integrity into the young lives and serve them for overall development. It is affiliated to Acharya Nagarjuna University and ever since its inception it has been emerging as a universal cosmopolitan and prestigious college in Guntur.

Initially the college had only B.Sc (M.B.C), B. Sc (M.P.Cs) and B.Com (General) courses. In 1998, B.C.A course & B.Sc (M.S.Cs) were introduced. Keeping in pace with the emerging needs of the society, additional course of B.Com (Res) was added in 1999. Seeing the aptitude for research in Biology, the courses were again streamlined in 2003 with the introduction of Biotechnology (B.B.C). To bridge the gap of previous value based education and the present day job oriented education, a Post Graduate course of M.C.A was installed into College academics in 2003.

During the Academic year 2007–2008, to be in par with the professionalism, M.B.A course was introduced and the college grew to the heights of excellence in educational ladder and thus reached the status of Post Graduate College.

In the present day of Commercialization of Education., though the college is encircled with many corporate colleges, still it has a strength of 900 students and 35 experienced, competent teaching Staff and 10 non teaching Staff, both at UG and PG levels. As the college is away from hustle & bustle of City, a serene and calm environment prevails in the campus.

About the Department:

The department of Physics was established in the year 1997 with B.Sc Mathematics, Physics and computer science with intake 30 students. Later it was enhanced to 50 students as intake in the academic year 2013. The course B.Sc Mathematics, Physics and Chemistry was introduced in the academic year 2003-2004 with intake of 60 students. In the academic year 2019-2020 additional section Mathematics, Physics and Computer Science with intake 50 students has granted by APSCHE, affiliated to Acharya Nagarjuna University.

The Department has dedicated, experienced and well qualified faculty members who continually update the knowledge on global trends. Teaching is a noble profession that shapes the character, caliber and future of an individual to develop a broad, deep and rigorous knowledge of the quantitative problems that govern the natural world. In this connection, the department of physics organizes various curricular and co-curricular activities like seminars workshops, quiz and PowerPoint presentation etc.

About the webinar:
