For Quality Life

Dr. M. ADINARAYANA RAO, M.D., R.D.
Founder President

Dr. M. BEKHA, D.M., R.D.
Secretary

Date : 17-07-2022

Memorandum of understanding (MOU) with educational institutes.

Future India foundation(FIF) is a non-profitable organisation, established by doctors in 2019 with Reg. no. 296/2019. Many useful innovative social programs done by FIF.

Main goal is to make India no.1 by 2040 in innovations and all positive aspects by tapping untapped potential of budding youth and make them useful for themselves, society, country, humanity by implementing "IIT to MII 2040" program.

Fundamentals :

Why India has not yet reached the expected position in innovations in the world in spite of having a lot of potential.

For any country to become a superpower or to reach No.1 position, it requires to generate more useful scientific innovations.

Compared to developed nations, India has an inadequate number of scientific innovations.

Why?

The main reason being insufficient scientific tempo, scientific curiosity, scientific logic, scientific adaptation, scientific thinking, scientific drive among the youth.

Why ?

In India, majority of education Policy, science is taught theoretically rather than by demonstrations, practical's or experiments.

Creating scientific curiosity among the students of India in a practical way , approach very important, mandatory, urgent and is highly challenging and requires lots of resources.

FIF intension:

FIF is born from this tough challenge and has taken lead, responsibility to create scientific tempo, curiosity in students by "IIT to MII2040" program i.e. Ignite innovative thinking (IIT) to Make India no.1 in innovations(MII) by 2040.

P.T.O

Administrative Office :

#12-12 75 to 79, 2nd Floor, MA Advanced Diagnostic & Research Centre, Bosebomma Centre, Old Club Road, Kothapet, GUNTUR-522 001.
Cell : 91003 14365, E-mail : future-india@hotmail.com, website : future-india.org.

"What is "IIT to MII 2040"

"Ignite innovative thinking" to "make India no.1 in innovations" by 2040.

1st of its kind in the world and India.

IIT program is 4 to 5 hours highly scientific, seed program, easily understand to 10th and above standard students.

"IIT to MII 2040" has two components.

1. Real time medical medical, science tech expo.(RTMSTE)
2. Creating new ideas (CNI) in scientific way to solve problem.

So help to the students in enhancement of decision making ability, problem solving ability to create future.

Memorandum of understanding (MOU)

Future India foundation (party 1) wants to conduct an "IIT to MII 2040" program to the 10th class, inter, science degree, Professional courses like physiotherapy, pharma D , Engineering students of every year.

Our school / college (Party 2) students participate in IIT program conducted by Future India foundation (FIF).

Both Parties mutually understand and agreed with this MOU.

Dr.M.Adinarayana Rao.M.D,R.D.
